Among others referred to in a recent issue of the Norristown (Pa.) Herald, were the following cases of special interest. They are their own commentary. Samuel C. Nyce, resides at 308 Marshall st., and holds the responsible position as journal clerk in the Pennsylvania Legislature, at Harrisburg. While Mr. Nyce and family were in the country recently, his boy, aged three years, fell and broke the limb. He recovered, but a very troublesome stiffness set in and he could scarcely use the leg. The injured limb was rubbed several times with St. Jacobs Oil, and the stiffness was so much reduced that the boy was able to use his leg freely. Dr. Knipe said it was the use of St. Jacobs Oil that cured the stiffness. Mr. Nyce himself used the Great German Remedy for toothache with good effect, and also for a sprain and pains of rheumatic nature, and always with good effect. Mrs. Nyce also says she thinks the Oil is a splendid thing, and she always keeps it on hand.

## CINCHING ALL CLASSES.

The GAZETTE is informed that a new Chinese bank was opened on Montgomery street between California and Sacramento, on April 1. It has unlimited capital—said to be four million—and will do a general banking business, and a Chinese banking business in particular. That is taking the rich men right in where they felt perfectly safe. They argued and believed that the only danger from the Chinese was to the laboring classes. Now they are running steamships, opening banks, factories, etc.

## ARREST THE VAGS.

The town of Reno will not impress travelers very favorably when they are regularly "struck" at the Depot by two or three chronic vagrants.

A GAZETTE reporter counted this morning several young fellows, in the prime and strength of life, imposing on the charity of eastern-bound passengers. One young fellow particularly, of about 18 years, was very successful. He "got away" with four different donations of 50 cents each.

It is a disgrace and shame to the community, and ought to be stopped by the authorities.

## EDITORIAL NOTES.

The San Francisco Chronicle says there is not a Democrat on the coast who would not rejoice if President Arthur should veto the anti-Chinese bill.

A book advertised in the Tribune will appear shortly in Utah, written by "A Utah goose." Sam, is this your new nom de plume?

## WESTERN TELEGRAMS.

## A Stockton Blaze.

STOCKTON, April 3.—This afternoon a fire broke out in Sperry & Co.'s flouring mill, a large four-story building. The fire soon communicated to a large wooden warehouse adjoining the mill, in which was stored an immense quantity of grain and ground feed. Both buildings and contents were destroyed. Several other buildings, including a residence, were totally destroyed. After a fierce and protracted struggle for the mastery, the firemen subdued the flames. The total loss will reach \$150,000; insurance, \$80,000. During the fire several men were injured, but none fatally.

## A Robber Loose.

SANTA BARBARA, Cal., April 2.—Dick Fellows, the famous stage robber, escaped from the county jail this morning. Deputy Sheriff George Sherman had occasion to enter the robber's cell when Fellows knocked him down, took his pistol and left the jail. Sherman's wife witnessed the affair, and called loudly for help, but no one happened to be in the vicinity. Fellows started for the mountains back of town. Sheriff Sherman immediately organized a party and started in pursuit. He is armed with a pistol, and is not manacled.

LATER—News has just been received that Fellows has been recaptured.

## A War on the Street.

SAN FRANCISCO, April 2.—Two gamblers, John N. Massey and James Hamblin, between whom existed bad blood, engaged in an altercation last night on the corner of Kearney and Morton streets, during which the former struck the latter a heavy blow on the head with a cane. Hamblin left, but, arming himself, returned, and, meeting Massey, shot him three times, killing him almost instantly. Hamblin was arrested, but refuses to make any statement. Massey is an old resident of San Francisco and is well known among the sporting fraternity. He has the reputation of being a sober and peaceable man.

## Fire in Washington Territory.

DATON, W. T., April 3.—A fire broke out yesterday morning and burned the Northwestern Hotel, the block south of the square and the block opposite the Postoffice. A good fight with buckets saved the last half of the town. Loss, \$50,000; insurance, \$30,000.

## Another Change of Mind.

WASHINGTON, April 2.—It is reported to-night that the President will to-morrow withdraw the nomination of S. P. Rounds, of Illinois, for Public Printer, on the ground of his disqualification.

Press Dispatches to EVENING GAZETTE.

## Cornelius Vanderbilt Suicides.

NEW YORK, April 3.—Cornelius J. Vanderbilt, brother of Wm. H. Vanderbilt, shot himself at Glenham Hotel, 5th Avenue, yesterday afternoon at 2 o'clock, and died from the effects of the wound at 6 o'clock. From the time of the shooting until his death Vanderbilt was unconscious.

Many friends and members of his family were present when he passed away. The motive for the act given by friends is that it was the result of mental derangement brought on by years of suffering from epileptic fits. No other reason could be given, as his financial affairs are said to be in a most prosperous condition.

Vanderbilt came to Glenham Hotel two weeks ago last Friday, from Florida, where he had been spending several weeks. He had previously visited Hot Springs, Arkansas, for his health, which for the past year has been very poor. He was accompanied by his friend and traveling companion Geo. Terry, of this city, who has been with him continually for many years, in his travels and at his home. Vanderbilt's condition was such that assistance was likely to be needed any moment, when he might be taken with his epileptic fits, and for this reason a companion was indispensable. They engaged a suite of rooms on the 5th floor of the hotel, which is the one Vanderbilt always patronized when in the city. Vanderbilt occupied one room alone. He was in his room much of the time, and has been out but seldom since his arrival here.

Mr. Terry was in his room the greater part of the morning, attending to the sick man's wants, but noticed nothing unusual in his actions or appearance, as he seemed to be in perfect sound mind. Just before 1 he left the room for an adjoining apartment, which he occupied, to attend to some private affairs, leaving Vanderbilt, as he supposed, sleeping. He had been out about an hour. Meanwhile he had heard no sound. Suddenly he was startled by a loud report of a pistol coming from the adjoining room. Hastily jumping up, he rushed to the door, and, opening it, was horrified to see Vanderbilt struggling, apparently in the agonies of death. In his right hand he held an ugly bullet wound, from which the blood slowly oozed. He still clasped in his outstretched hand a small, seven-chambered revolver, one of the barrels of which had been discharged. Terry identified the pistol as one which Vanderbilt had been in the habit of carrying for several years.

Shortly after the struggles of the wounded man ceased, and the only evidence that life was not extinct was the slow and labored breathing. Dr. Robert F. Weir, the family physician, when he arrived, pronounced the wound fatal, and said there was not the slightest hope of saving his life. Several attempts were made to restore him to consciousness, but without success. Vanderbilt never spoke after he was shot.

Meanwhile messengers were sent for his friends and family. The latter live in the city, but the deceased had not been on speaking terms with them for years. His brother, William H., arrived at the hotel between 4 and 5 o'clock, and was shown to his room. He said but little, and when told his brother could not live remained only a short time to make arrangements for the disposition of the body and then drove away. His visit was followed by that of his son Cornelius and other of the dying man's nephews, who reside in the city, and who remained with him until he died. C. O. Perrin, Dr. Weir, and Scott Lord, Mr. Vanderbilt's lawyer, were among others present at the death, which occurred a few minutes before six.

## VANDERBILT'S HISTORY.

NEW YORK, April 3.—Vanderbilt was 51 years old. He was one of thirteen children, and of three sons. In early life he lived with his father, Commodore Vanderbilt on Staten Island, but when he was 18 years old he left his home on account of some fancied injustice of his father. The Commodore allowed him between \$100 and \$200 a month to live on. In 1856 he married Miss Williams, of Hartford, Connecticut. She bore him no children, and lived only a few weeks after her marriage. From infancy Cornelius was an invalid, and was subject to epileptic fits.

A Deadly Thrust in Missouri.  
ST. LOUIS, April 3.—While Charles Fisher and a man named Trotter were riding side by side on horseback near Poplin station on the Cairo branch of the Iron Mountain railroad yesterday afternoon they got into an altercation about some business transactions, and Trotter drew a knife and stabbed Fisher to the heart. Trotter was arrested, but there was great excitement, and threats of lynching him were freely made by Fisher's friends.

## Berry in the Field.

WASHINGTON, April 3.—In conversation with Congressman Berry to-day, your correspondent called his attention to statements in several California papers, that he will be a candidate for re-nomination to Congress, and that he will not be a candidate for nomination as Governor. Berry emphatically replied that the

facts are precisely the reverse of these statements. He says it is well understood by his friends that he will not allow his name to be used again as a candidate for Congress. He further says that although he had not desired to announce himself as a candidate for Governor, his friends fully understand his views on that subject, and will present his name to the Democratic State Convention for the position, and should he be nominated by his party to uphold their ticket as Governor, he will accept the nomination and make a vigorous campaign for election. He also freely said to-day that he believed the statements above referred to have emanated from persons who prefer that he should not be a candidate for Governor. The Congressional Record of yesterday contains a speech which Berry obtained leave to print as his remarks on the question of extending National Bank charters. In his prepared speech he elaborately argues that Congress should pass a law substituting Treasury notes for National Bank notes, redeem Government bonds to the extent of the present bank circulation and discontinue all banks of issue at the end of 20 years from the date of the law under which they were organized. He also takes the ground that we should promptly revise the tariff on a just and equitable basis, neither in the interest of free trade nor of protection, but with a view to producing the greatest amount of revenue and maintain an internal revenue tax especially on whisky and tobacco.

Killing in Tennessee.  
MURFREESBORO (Tenn.), April 3.—Thomas McEwen, Special Deputy Sheriff, went out Saturday night to arrest Bethel Thompson, who shot an officer in Shelbyville last year when about to be arrested for horse-stealing. Thompson was concealing himself at a house of ill fame and was found in bed. While McEwen was reading the warrant Thompson shot him with a pistol which he drew from under his pillow, passing through the neck, inflicting a bad wound, probably fatal. McEwen returned the fire killing Thompson instantly. Thompson was the third man McEwen has killed.

Lynch Him.  
INDIANAPOLIS, Ind., April 3.—Charles Gileson, Franklin, Ind., was arrested at Kokomo, Ind., yesterday morning charged with committing rape on a three-year-old daughter of Edward Pritchard. He entered the house about one o'clock in the morning and chloroformed the family and took the child from the crib to an out-house. The streets are crowded with people, and it is feared he will be lynched before morning. The jail is surrounded by a furious crowd. It is thought that the child cannot survive. The sheriff has called on the Government for assistance.

Bury Burglar in Chicago.  
CHICAGO, April 2.—Police officer John Hamohan, with a comrade, arrested a burglar early this morning, and while being conveyed to the station the prisoner drew a revolver and shot Hamohan, inflicting a serious wound. The prisoner ran but was recaptured. A burglar, early this morning, entered the residence of George West. The latter being aroused, opened fire with a revolver, shooting the intruder, who will probably die.

Collision at Sea.  
LONDON, April 2.—The Spanish steamer Yrurac Bat, Captain Ugarte, from Liverpool for Porto Rico, came in collision with the Royal Mail Company's steamer Dowro from Brazil, off the coast of Spain, Saturday night. Both steamers sunk. Eighty-four persons were rescued. Thirty of the crew of the Yrurac's boat, including the captain and pilot, were drowned. Thirty-five of the Dowro's passengers were saved. The number of drowned is unknown.

Murder in Nebraska.  
SEWARD (Nebr.), April 2.—A. C. Patrick shot his wife through the heart last night, and then fired at each of his two sons, slightly wounding one of them. Patrick had trouble with his wife in the East and she came here with her sons and engaged in farming. He followed, and for some time has been loafing about town and drinking whisky. He escaped.

Bad Brothers.  
CINCINNATI, April 1.—At midnight, to-night, John McDonald, keeper of a saloon in Covington, Ky., cut his brother, Thos. McDonald, so seriously that he cannot live. They quarrelled, and Thomas raised a chair to strike John. Both were under the influence of whisky.

New Postmasters.  
WASHINGTON, April 3.—This week Dave Caffyn was appointed postmaster at Emigrant Gap; Frank A. Ambler at Halleck, Nev.; J. F. Short, Ruby Valley, Nev.; T. Logan, at St. Joseph, Lincoln county, Nevada; and H. W. Braham, Suro, Nevada.

Like a Little Fun.  
ST. LOUIS, April 3.—At Rockport, Mo., some 20 or more drunken negroes created a disturbance on the street late last night and assaulted one or two white men. Several special deputies were sworn in to maintain peace, who notified the negroes that they must disperse or be

arrested. One of them attempted to strike one of the officers, who drew a weapon and fired at his assailant, but without hitting him. The negroes then fled, but some time later, and while some 15 or 20 men and boys were standing on the street talking together, a volley from guns and pistols was fired at them by negroes from an alley on the opposite side of the street and eight of the party wounded, but none of them seriously. Great excitement ensued and ten of the negroes were arrested and locked up.

How the Cabinet Stands.  
WASHINGTON, April 2.—The Cabinet is said to be about equally divided on the Chinese bill, standing, it is reported, as follows: For approval—Howe, Lincoln and Kirkwood. For unconditional veto—Frelinghuysen. For approval if the 20 years provision can be reduced to 10 years—Brewster. Absent and unknown—Folger. On the fence, without a definite opinion—Hunt.

They Didn't Divide.  
TROY (N. Y.), April 3.—A statement made by Johnny Roach, Paddy Ryan's trainer, was made public yesterday, accusing Ryan of selling the recent prize fight in Louisiana. Roach says one day Ryan said to me, John, do you know this would be a good selling fight? A man could make \$20,000 if he would throw the thing, and no one would be wiser.

Mad About It.  
PORTLAND, Me., April 2.—The Land League denounce as infamous the conduct of Minister Lowell, and demand his recall. The President was also requested to demand the immediate trial of all Americans now confined in British dungeons.

Asylum Burned.  
YANKTON (Dakota), April 2.—The Territorial insane asylum was burned this morning. It was a temporary wooden building, used while the brick building was going up. Several lunatics ran into the flames and perished.

An Employee Ingratulate.  
PHILADELPHIA, April 3.—Thomas P. Leslie shot his former employer, Thomas Nelson, an invalid, and attempted to rob him. He was arrested last evening.

Burned by Lightning.  
BUFFALO (N. Y.), April 2.—The Main-street station of the New York, Lake Erie and Western railroad was struck by lightning and burned.

Afraid of the Walls.  
FALL RIVER, Mass., April 2.—The spinners of the Sagamore mills decided to strike to-morrow. They allege the mills are too heavily weighted.

A Diplomatist Dead.  
CHICAGO, April 3.—Minister Humbert, Peru, died suddenly of heart disease.

A Dead Governor.  
NEW YORK, April 2.—Sir Robert Michael Laffan, Governor of Bermuda, died there March 2d.

FOREIGN.  
Mexican Matters.  
MEXICO, April 3.—Congress opened and President Gonzalez read an address. It stated that the Guatemala difficulty remains unsettled and Guatemala must now speedily renounce the idea of acquiring the States of Chiapas or Soconusco, or war is inevitable. The President congratulated the country on the great progress made in building railroad and telegraph lines, the increase of public revenues and the emigration of the Latin races of Europe to Mexico.

Gone From the Bombs.  
ST. PETERSBURG, April 2.—Sukanoff, condemned to death at the recent Nihilist trial, was shot at Cronstadt, at the place of execution.

The marine troops and sailors were drawn up on three sides of a square. On the open side, in front of a wall, was a black post, before which the prisoner was placed in a white shroud, and to which he was bound. Twelve marines fired. Death was instantaneous. Thousands of people surrounded the spot.

The Tollers of the Sea.  
HALIFAX, April 3.—The steamer Ayrshire, from Montreal, Scotland, for New York, with potatoes, put in here short of coal. She had a most tempestuous voyage. The captain had an arm broken, the carpenter a leg broken and the boat-swain a shoulder dislocated. The second officer was washed overboard but a returning wave landed him again on deck.

Hard Life at Sea.  
HALIFAX, April 3.—The Captain and crew of the brigantine William, wrecked on Sable Island, have arrived here. The vessel got jammed in the ice and provisions gave out, and the men then subsisted on oats for 23 days. They got water from pots in the ice.

Assassins Unhanged.  
ST. PETERSBURG, April 3.—The two assassins of General Strel-nikoff are not hanged. The Czar did

issue an order for their immediate execution, but he subsequently countermanded it. The murderers of General Strelnikoff received copies of the indictment against them yesterday. A council of war met at Odessa last evening to try the prisoners. Sentence of death was pronounced at midnight. The body of General Strelnikoff was buried this morning with full military honors. It is stated that Deplewe, the present Chief of the Police Department, is about to retire, receiving a provincial appointment.

Did Not Go.  
DUBLIN, April 2.—Three passengers of the steamer Scythia, from Liverpool for New York, were arrested on their arrival here charged with being implicated in the murder of A. Herbert.

Judge Lynch.  
ST. NICOLAS, N. M., April 2.—Three more victims have been hanged by the vigilantes. The victims were dragged toward the thickets by a number of men and blood streamed from their mouths and nostrils from blows received.

Testimonial.  
To all who may be suffering from any incurable disease, attention is called to the wonderful cures performed by Mr. A. Zimmer, of Reno, Nevada. While Mr. Zimmer does not claim to be a physician, yet, whatever he undertakes is sure to terminate in a permanent cure. The worst kind of diseases, such as cancer and scrofula in all its worst forms, lung, liver, heart and kidney diseases, scrofula, leprosy and tumors weighing from 5 to 30 pounds, are cured in all its worst forms, neuralgia in the stomach; ulcerated sores of all kinds; fits or falling sickness; salt rheum in all its forms; the seven kinds of dropsy; milk leg and white swelling; gangrenous or painful ulcers and mortification, though proof, against the highest skill of renowned physicians and pronounced incurable by them, are all cured by him and invariably the patient recovers violent ailments. The remedies used by Mr. Zimmer are simple but efficacious, consisting simply of laying on of hands and the use of a few simple medicines of his own. He does not claim any supernatural powers, yet it must be conceded that the wonders he has performed that some powerful agency is allied with him. Numerous cases can be cited of almost miraculous cures, and any person by calling on or addressing me will receive further information concerning the subject, and proofs that the above statements are true.

## NICKEL IN NEVADA.

A Man Thinks he has Found a Mountain of it.

W. S. Bell, of Sacramento, has done considerable prospecting for copper in the mountains between Humboldt and Churchill counties, and recently while testing some green looking rock, he found no copper, but a base of nickel with a copper stain. He went out again yesterday morning, and was interviewed by a GAZETTE reporter. He says he has three veins of ore, one almost black by being stained with cobalt, iron, etc., one stained green by copper, and the other a gray or natural nickel color. He says his rock yields from 8 to 38 per cent. nickel, while the only other mines known only work between 2 and 2 1/2 per cent. His mine has been developed by nature itself, as old, worn water-ways cut the veins hundreds of feet deep, and expose sections of them to the sun. He has had four men at work for five weeks, and is going to ship some of the ore to Liverpool, New York and Philadelphia. His claims are in the I X L range, 60 miles north of the mines, 45 miles from Orona and Lovelocks, and about 30 miles from Unionville.

## Still Growing.

For a great many years the people in Reno and Washoe county have enjoyed the benefits of John Sunderland's long experience and close business habits, and they have gotten so accustomed to benefits derived from a first-class boot and shoe store that it is hard to tell what they would do now if they should lose him. He is constantly enlarging his field, and now draws trade from away in Eastern Nevada and over the line in Utah. He sends goods away north, and as far south. At home he supplies No. 1 goods to his customers, and is never satisfied with what he has done, but is always trying to meet other wants and gather in more business. His store is one of the landmarks of the town, and is worth visiting. This Spring it is improved and enlarged. The stock is more varied, the quality superior, and the supply greater than ever before.

## Musical Convention.

The event of the week will be the musical convention to be conducted by Professor H. S. Perkins, of Chicago. This is the first convention of the kind ever given in the State. It is designed to instruct musicians of all grades, in elementary singing, sight reading, rendering of higher classes of music and voice culture. Professor Perkins gives twelve lessons, going over the entire ground. It will be exceedingly profitable to all grades of singers. There is a promise of a large convention, and all the musical people of Reno should be present at the opening at half-past nine to-morrow morning at the Baptist church, and be ready to attend all the meetings. Reno people ought to take great pride in making the convention a grand success.

## The Bullion Mine.

The Bullion mine at Virginia City was attached Friday, for about \$20,000 by Prescott, Scott & Co., and the V. & T. R. R. The Sheriff took possession, but allowed the work to go on as usual. Superintendent P. A. Humbert, now in San Francisco, will come up with the necessary coin in a few days and release the attachment. The Bullion (Ward) shaft is in a good condition to begin active operations, and work some of the good prospects they have in the lower levels.

# Skeletons Eighteen Hundred Years Old.

On January 24, the skeleton of a woman with a child was discovered at Pompeii, in a narrow street about 12 feet above the level of the ancient pavement. It is well known that the catastrophe of 77 A. D. commenced with a thick shower of small pumice stones, by which the streets of Pompeii were covered up to the roofs of the houses. Stones were succeeded by ashes, which became solid, owing to the successive showers of boiling water, and these ashes now form the top layer of materials which cover the ruins of Pompeii. Most of the unhappy beings who remained in the houses after the eruption first reached the town made their escape through the windows, but the greater part of these fugitives could have taken but few steps, and must have been quickly suffocated by the poisonous fumes. With one arm the woman whose skeleton has now been found was clasping the legs of the child, whose body shows contraction in the arms and legs and a general emaciation, which led us to suppose that the child must have been very ill. It was a little boy about 10 years of age. Doubtless the woman was the mother of the child. Some jewels, found on the skeleton of the woman, indicate a person of condition; two bracelets of gold encircled the arm which held the boy, and on the hand were two gold rings, the one set with an emerald on which is engraved a horn of plenty, and the other with an amethyst bearing a head of Mercury.

GENTLEMEN: Your remedy, the Safe Kidney and Liver Cure has been used by both my wife and myself. She used it "on general principles," as a system and liver regulator; I took the medicine for a long-standing liver trouble, which has been the source of much inconvenience, and which failed to yield to the doctor's remedies, or any other, until I used your Safe Kidney and Liver Cure. We both unite in pronouncing it to be the best medicine ever used, and in recommending it to others as a safe remedy.

Yours truly,

Major of Moline, Ill.

H. H. Warner & Co., Rochester, N. Y.

MY DEAR SIR: For several years I have been a sufferer, and until your Safe Kidney and Liver Cure was suggested I have not known what it is to be free from pain. My family physician attributed all my suffering to a diseased condition of my kidneys, and after he had failed to give me relief, I tried your remedy. I feel a well man to-day.

Yours truly,

Carl Pfeiffer
